**MK-9 BOV Ballistic Stream:** The **MK-9 BOV** and its new innovative delivery system have changed the playing field in favor for law enforcement personnel across the country. The Bag-On-Valve actuator assembly allows the unit to discharge from any angle or position, may it be sideways, upside down, or even shooting straight up from a prone stance. The **MK-9 BOV** gives the law enforcement professional tactical versatility along with the desirable controlling force provided by Guardian Protective Devices. You can feel comfortable either engaging multiple targets or picking out individuals. Guardian provides its user with the enhanced tools to gain the tactical edge, and now with the new addition of the Bag-On-Valve delivery system, that edge just got sharper.

<b>Scoville Heat Units (SHU)</b>	500,000	2,000,000		Zero

**Formulation:** Oleoresin Capsicum (OC) combined with a **Non-Flammable carrier**. Guardian Protective Devices™ sprays are safe for use with Electro Muscular Disruption (EMD) technology, such as Taser™. UV dye added for easy identification, putting the subject at the scene of incidence.

OC + CS blends are available, custom blends upon request to meet your department requirements.

**Safety:** The ballistic grip uses a state of the art pull ring which secures the trigger, to prevent accidental discharge. The contour on the ballistic grip allows for a steady comfortable grip allowing target acquisition.

**Labeling:** All canister labels are wearing water-resistant and contain the following data:

- Individualized Serial Numbers
- Active Ingredient
- Date of Manufacture
- Date of Expiration
- Lot / Batch Number
- Stock Number
- Decontamination Instructions

**Packaging:** Department of Transportation (DOT) approved commercial packaging.

 Made in the USA.  
D.O.D. approved facility.
